Applicants who want to become professionals in this field must recognize that the work can be arduous and physically demanding. Cosmetologists spend long hours standing with hands at shoulder level, bending to perform shampooing and hair services on clients. Manicurists spend hours sitting at a manicure table looking down. Instructors spend hours standing while teaching and walking to monitor the students on the clinic floor. Applicant should have finger dexterity and a sense of form and artistry. The applicant must enjoy dealing with the public and have good communication skills. The applicant must keep abreast of fashion and new techniques. When the applicant begins to build a clientele, one must be able to understand the number of hours it takes to do so. Methods of compensation vary and may include; straight salary, salary plus commission, straight commission, sliding scale commission, retail commission or independent contracting (renting space and equipment from an existing salon or spa).

Having the skills necessary to operate a personal business is very important and requires constant attention. In this business, there is exposure to various chemicals and fumes that may be harmful if used incorrectly. The practice of safety and infection control is essential for an effective and successful performance within the industry. According to the Arkansas Department Cosmetology Law Book this factor is the reason why a license may be suspended or revoked and therefore may prevent an individual from obtaining and/or maintaining employment in the field for which training is provided. These laws may be enforced if in violation of a civil penalty with fines up to \$1,000 and up to 1 year in jail. We here at Cosmetology Career College, Inc. Wish for our students to make a strong commitment and complete our course of study under the guidelines we have established.
